NEW VERSION - EARLY 2027

OUR ACTIVITIES

1

Digital tools

Design accessible educational applications and platforms.

2

Distance learning

Deliver online courses and provide remote academic support.

3

Families and journeys

Organise cultural and spiritual journeys and support families.

4

Education and excellence

Teach languages, the Quran, mathematics and physics to prepare young people for selective schools and higher education.

LEARNING PATHWAY

01-02

Foundations

03-04

Guided reading

05-06

Advanced reading

07

Mastery

LEARN - UNDERSTAND - PASS IT ON

A progressive learning pathway, human support and a shared portal connecting students, families, teachers and administrators.

Available on the App Store and Google Play

BEYOND THE SCREEN

Cultural trip to Egypt - Summer 2026

Afrilang combines digital learning, education and cultural encounters. The trip to Egypt created new connections, recognised individual journeys and enriched the learning experience.

OUR AMBITION

LANGUAGES AND QURAN

Develop reading, understanding, memorisation and language proficiency.

MATHEMATICS AND PHYSICS

Strengthen scientific foundations and prepare young people for selective schools and higher education.

EDUCATION AND TRANSMISSION

Build lasting links between parents, children and future generations through education and shared journeys.

COLLABORATION

Bring teachers, families, reciters, translators and partners together around the project.

“Our language must also become a language our children will want to speak and pass on.”
